Teaching of courses would be reckoned in terms of <i>credits</i>. Every course has a list of courses (may be void) as it's pre-requisite. A student who has qualified in all the courses in the pre- requisite would be allowed to register in the course. The Dean of the School concerned in consultation with Head of the Department concerned has the prerogative to waive the prerequisite (if the student has done certification programs etc and acquired the knowledge) in case the student has gained sufficient proficiency to take up the course.</p>	
	<p>b) For calculating credit, each lecture and tutorial hour will be considered as one credit and two practical hours as one credit. In situations, where it is a fraction, it is rounded to the next number (for example, in case of courses having 3 practical contact hours, it is rounded to 2 credits).</p>	7.02
	<p>c) There may be courses having contact hours but 'zero' credit assigned to it (<i>Audit courses</i> (Refer Academic Clause 15.0)). For such type of courses, students will get qualifying report 'Q' (indicating qualified) or non-qualifier report 'NQ' (not qualified). Students obtaining the NQ report have to repeat the course.</p>	7.03
	<p>d) Courses like Industrial Practice, Project Work, Field visits, Dissertation, Seminar, and such similar Courses, and, where the pedagogy does not lend itself to a typical L-T-P structure are simply assigned the number of credits based on the quantum of work/effort required to fulfil the learning objectives and outcomes prescribed for the concerned courses.</p>	7.04
<b>8.</b>	<b>Attendance</b>	<b>8.00</b>
	<p>a) It is mandatory for a student to attend all the classes, tutorials, laboratories and other evaluation components conducted by the University. A student may be detained from appearing in the examination on grounds of deficient attendance.</p>	8.01
